EDUCATION

B.Tech in Computer Science and Engineering

Manav Rachna University, Faridabad

2018 - 2022

CGPA : 7.41/10

SKILLS

Languages: Java, Javascript, Python, C++

Frameworks/Tools: Node.js, React, Express.js, Django, Spring Boot, Microservices

Databases/Cloud services: MongoDB, MySQL, PostgreSQL, Aws, Heroku, Netlify

Developer Tools: Git, GitHub Desktop, Postman, Visual Studio Code

WORK EXPERIENCE

Wyse Sep 2023 - Jun 2024

Software Development Engineer

Remote

- A networking platform designed to connect professionals and enthusiasts within specific industries, promoting collaboration and mentorship.
- A social media application tailored for Gen Z college students, facilitating connections, experience sharing, and peer engagement.

Cyno Pharmaceuticals Ltd Jun 2023 - Aug 2023

Software Development Engineer

Delhi, India

- Order Management SAAS Solution: Developed a comprehensive SAAS application for automating order placement, tracking, and accounting using React.js, Node.js, and AWS.
- Order Dispatch Tracking System: Created a real-time system for tracking order dispatches with React.js, Node.js, and MongoDB.

Ayasya Digital Solutions Aug 2022 - Feb 2023

Software Development Engineer

Delhi, India

- Adobe Experience Manager (AEM) Development: Utilized AEM for building and managing web solutions, with experience in Java, Servlets, and Postman for API development and testing.
- API Integration: Developed and maintained APIs for merchant, store, and onboarding panels, enhancing functionality and integration.

PROJECTS

Health Care | *Html, Css, JavaScript, ReactJs, Github, Visual-Studio*

- Health Care Overview: The field of medicine and health services is dedicated to diagnosing, treating, and preventing illness and disease. It prioritizes patient care, health promotion, and incorporates ongoing research and innovation to improve health outcomes.
- Additional Focus: It also works to enhance public health and wellness and aims to improve healthcare accessibility and quality for diverse populations.

Netflix Clone | *Html, Css, JavaScript, ReactJs, Github, Visual-Studio*

- Project Overview: A video streaming platform mimicking Netflix's core functionalities and user experience.
- Key Features: Includes video playback, user profiles, content browsing, and personalized recommendations.

Rest Api Spring Boot | *Java, SpringBoot, Postman, Eclipse*

- Book Management API: Built a Spring Boot REST API for managing book records with functionality to fetch, add, update, and delete books.
- Database Integration: Connected the API to a database for persistent storage of book information.

ACHIEVEMENTS

- **LeetCode** : Ranked **555th** out of 22,070 in Biweekly Contest 95 on January 7, 2023.
- **GeeksforGeeks**: Currently ranked **1** at Manav Rachna University.
- Solved **1000+** problems across various platforms, including LeetCode and GeeksforGeeks.
